

OPERATING THE HOLTER MONITOR

1. Insert Cassette.
2. Install new battery. Polarity (+/-) doesn't matter.
3. Connect Patient.
4. Close Head Bar. Make it "click" twice. Listen for the beep.
5. Visually check that the tape is turning.
6. Write patient name, start time and date on cassette.
7. Complete Holter Monitoring Request Form.
8. When the patient returns, send the cassette, the form and the diary to Alba Medical for scanning.
